Options

Single Roof or
Double Roof

Choose between one roof line or two. With two roof lines, you have more ventilation.

Choose between a Vinyl or Wood Gazebo

If you are looking for something with a natural feel, our wood options are meant for you. We use only pressure treated Southern Yellow Pine for the structure of our Gazebo and finish the roof with a beautiful 1"x8" tongue & groove white pine in the ceiling. This gazebo will add an earthy feel.

If clean and modern is your feel, then vinyl will work best for you. Between its low maintenance materials and its smooth appearance, it adds a modern dimension to any yard or garden. Lifetime warranty on vinyl. 25 year warranty on floor.
